

Stud Incremental — Map Build Spec

Rough draft. Screenshots of a 3D block-out show where everything goes, and the text says how each part should look and work. Zones are numbered in unlock order. 1 layout unit = 1 Roblox stud.

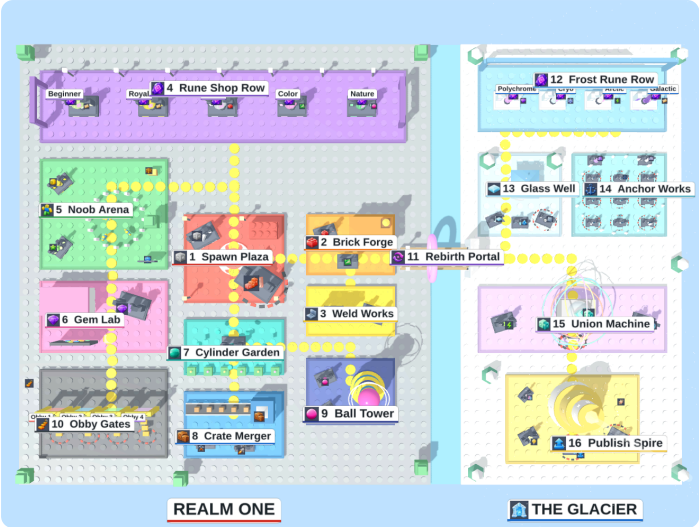

Overview: Realm One on the left, the Rebirth Portal bridge over the water, and The Glacier (Realm Two) on the right.

#	Zone	Realm	Size	X	Z	Unlock
1	 Spawn Plaza	Realm One	180×160	300–480	300–460	Start (Stack 0)
2	 Brick Forge	Realm One	160×110	520–680	300–410	Stack 1
3	 Weld Works	Realm One	160×90	520–680	430–520	Stack 2
4	 Rune Shop Row	Realm One	660×130	40–700	40–170	Beginner & Royal Stack 1 · Basic Stack 3 · Color Stack 6 · Nature Stack 9
5	 Noob Arena	Realm One	230×200	40–270	200–400	Stack 4
6	 Gem Lab	Realm One	230×130	40–270	420–550	Stack 5 (x2 pad and talent Gem button at Stack 6)
7	 Cylinder Garden	Realm One	180×100	300–480	490–590	Stack 7
8	 Crate Merger	Realm One	180×120	300–480	620–740	Stack 8

9	 Ball Tower	Realm One	160×120	520–680	560–680	Stack 9 (Meteors at Stack 10)
10	 Obby Gates	Realm One	230×160	40–270	580–740	C1 Stack 6 · C2 Stack 8 · C3 1e393 Studs · C4 1e96 Studs
11	 Rebirth Portal	Bridge	130×80	690–820	340–420	Studs > 1e2283 (~7 h in)
12	 Frost Rune Row	The Glacier	340×120	830–1170	30–150	Polychrome after Rebirth · Cryo Anchor 3 · Arctic Union 7 · Galactic Union 750
13	 Glass Well	The Glacier	150×150	830–980	190–340	After first Rebirth (Stack 10+ runs on Glass)
14	 Anchor Works	The Glacier	170×150	1000–1170	190–340	Anchor 1–3 Stack 11 · 4–6 Stack 12 · 7–9 Stack 13
15	 Union Machine	The Glacier	340×120	830–1170	430–550	Talent Union unlock (Gems ≥ 5e43)
16	 Publish Spire	The Glacier	240×160	880–1120	590–750	Publish 1 Lighting · 2 Foil pad · 3 Reflectance

Global build style

- **Scale:** 1 unit on the layout = 1 Roblox stud. Whole map $\approx 1200 \times 780$ studs. X runs west $\rightarrow$ east, Z runs north $\rightarrow$ south. Realm One: X 0–745. Water channel: X 745–800 (55 studs wide). The Glacier (Realm Two): X 800–1200.
- **Everything is bricks:** floors are studded baseplates. Each zone is a coloured plate 1.2 studs above the grey world baseplate, with a 1-stud curb in a darker shade of its colour.
- **Two looks:** ground and buildings are bright toy plastic (SmoothPlastic). Everything players interact with is a dark "machine" with Neon glow.
- **Stud trail:** oversized yellow studs lead from spawn to every zone in unlock order.
- **Locked zones:** a translucent brick wall (Transparency 0.5) with a padlock and "Stack X" text across the entrance.
- **Lighting:** Realm One is bright day (ClockTime 14, warm sun). The Glacier has a cool Ambient (#C9E6FF), light Atmosphere haze and falling snow.

Machine style (every pad and generator)

- **Base:** dark slate #262E3D block with chamfered edges, $\sim 20 \times 14$ studs, 3 studs tall, with a lighter top step (#2F384A).
- **Glow strips:** 2 Neon strips on the front of the base, in the currency's colour.
- **Pillars:** 2 dark pillars with a tall Neon panel on the front. *Core style* has angled caps leaning in over the centre (like the "Crystal Core" concept). *Stack style* has stepped blocks (like the "Stack" concept).
- **Centre:** an octagonal dark pedestal with a glowing ring, and a 3D version of the currency icon floating above it (slow spin, ± 1 stud bob).
- **Icon billboard:** a BillboardGui above the machine with the currency icon, name, cost and reward.
- **Reset pads** (Stack, Obbies, Rebirth, Anchor, Union, Publish, Reflectance, Diamond Plate): red-and-black hazard ring around the base, plus a confirm pop-up listing what gets reset.

1. Spawn Plaza

Realm One · 180×160 studs · X 300–480, Z 300–460 · Floor #d6322b · Unlock: Start (Stack 0) · Systems: Studs, Stack

Where every player spawns. It holds the two machines everyone uses from second one: Studs and Stack.

Reset pad · Stack: wipes Studs, Bricks, Welds, Oofs (and Noob level), Cylinders, Balls (and Ball levels), Crates/merger level, Tools, Thrusters, plus all their upgrades. From Stack 11 up it also wipes Glass, Glacier, Diamond Plate, Neon, Force Fields and all Anchors. **Keeps:** Build Points, Gems, Runes, Tix, talents.

How it looks: A big red studded plaza. In the middle is a white round spawn pad with a red Neon disc. In the north-west corner sits the grey Studs machine: a chunky grey stud-cube floats between two white-glowing pillars. In the south-east corner is the largest machine on the map, the Stack machine: three coral bricks stacked like a wedding cake (dark red at the bottom, peach at the top with studs), with stepped dark pillars and red-orange glow, copied straight from the Stack concept. A giant red 2×4 brick monument stands in the north-east corner as a landmark.

Build list:

- Floor: red plate 180×160, darker red curb with 4 exits.
- Spawn pad: white cylinder 30 studs across, 1 stud tall, red Neon inner disc.
- Studs machine (Core style, white/grey glow) 20×14 base. Centre: grey rounded cube with one big stud on top, like the Studs icon.
- Stack machine (Stack style, coral glow). Scale it 1.5× so it reads as the main goal. Its billboard shows 'Stack N → N+1' and a progress bar.

- Monument: red 2×4 brick scaled to 30×24×15 studs with 8 cylinder studs on top.
- 4 lamp posts at the corners (dark poles, yellow 2×2 glowing heads).

Feel & effects: Busy and bright. Sparkles float up from the spawn pad, and the Stack machine hums and pulses when you can afford it.

2. Brick Forge

Realm One · 160×110 studs · X 520–680, Z 300–410 · Floor #f07b1d · Unlock: Stack 1 · Systems: Bricks, Build Points

Bricks and Build Points. It's right next to spawn, so it's the first new area players walk to.

How it looks: A chunky brown brick forge with an orange-tile roof and a chimney with Neon flames. In front of it stand two machines. The Bricks machine has a glossy red 2×4 brick spinning in the middle with red glow strips. The Build Points machine has a green blueprint board with bar-chart bars, and green glow.

Build list:

- Floor: orange plate 160×110.
- Forge: brown box 70×40×50, open front arch glowing orange, chimney 15×40×15 with 3 stacked Neon flame cones.
- Bricks machine (Stack style, red glow #FF3B30).
- Build Points machine (Core style, green glow #34C759).
- Props: anvil, coal barrels, a rack of hammers.

Feel & effects: Warm fire crackle and ember particles from the chimney.

3. Weld Works

Realm One · 160×90 studs · X 520–680, Z 430–520 · Floor #f5c518 · Unlock: Stack 2 · Systems: Welds

The Welds machine, directly south of the forge because Bricks feed Welds.

How it looks: A yellow industrial plate with hazard-stripe edges. A big hydraulic press slams down on an anvil block, throwing sparks. Next to it, the Welds machine holds a floating steel L-bracket (the Welds icon) between blue-glowing pillars.

Build list:

- Floor: yellow plate 160×90 with black/yellow hazard edges.
- Press: 2 grey pillars, crossbeam, yellow piston that tweens down every 2 s (camera shake + spark burst on impact).
- Welds machine (Stack style, steel-blue glow #6FA8DC). Centre: brushed-metal L-bracket.
- Props: steel beam stacks, a welding cart with a torch that sparks.

Feel & effects: Heavy thud and welding sparks.

4. Rune Shop Row

Realm One · 660×130 studs · X 40–700, Z 40–170 · Floor #7a4bc4 · Unlock: Beginner & Royal Stack 1 · Basic Stack 3 · Color Stack 6 · Nature Stack 9 · Systems: Runes, Tix, Bricks, Build Points, Balls

The 5 Realm One rune packs, all on one purple street. They're ordered by unlock, going west from spawn.

How it looks: A long purple avenue with 5 rune machines in a row. Each one has a big faceted rune crystal floating and spinning in the middle: a chunky cut gem with a glowing pink square-in-a-square symbol in its face, like the Runes icon. The crystal is tinted for its pack (Beginner lime, Royal gold, Basic grey, Color pink, Nature green) while the glowing symbol stays hot pink. Purple arches reading 'RUNES' stand at both ends, and purple Neon lamp posts run along the back.

Build list:

- Floor: purple plate 660×130.
- 5 rune machines (Core style), 125 studs apart. Glow colour matches the pack.
- Rune crystal: a flat, chunky 8-sided cut gem about 10 studs across (Glass, slightly transparent, pack-tinted), leaning back about 20°. Its front face carries 3 nested square frames in Neon hot pink (#FF3DF0) with a white-hot centre. Spins at 20°/s with a pink PointLight inside.
- Billboard per machine: pack name, the currency icon it costs (Tix, Bricks, Build Points or Balls), and cost per open.
- Locked packs show a padlock over the rune until their Stack is reached.

Feel & effects: Magical sparkles around each rune, and a crystal chime plus a burst of pink shards on each open.

5. Noob Arena

Realm One · 230×200 studs · X 40–270, Z 200–400 · Floor #3aa655 · Unlock: Stack 4 · Systems: Noobs, Oofs, Builder XP, Builder Level, Loot Crates

The mob zone. Classic noobs spawn here. Fighting them gives Oofs and Builder XP, and Loot Crates drop.

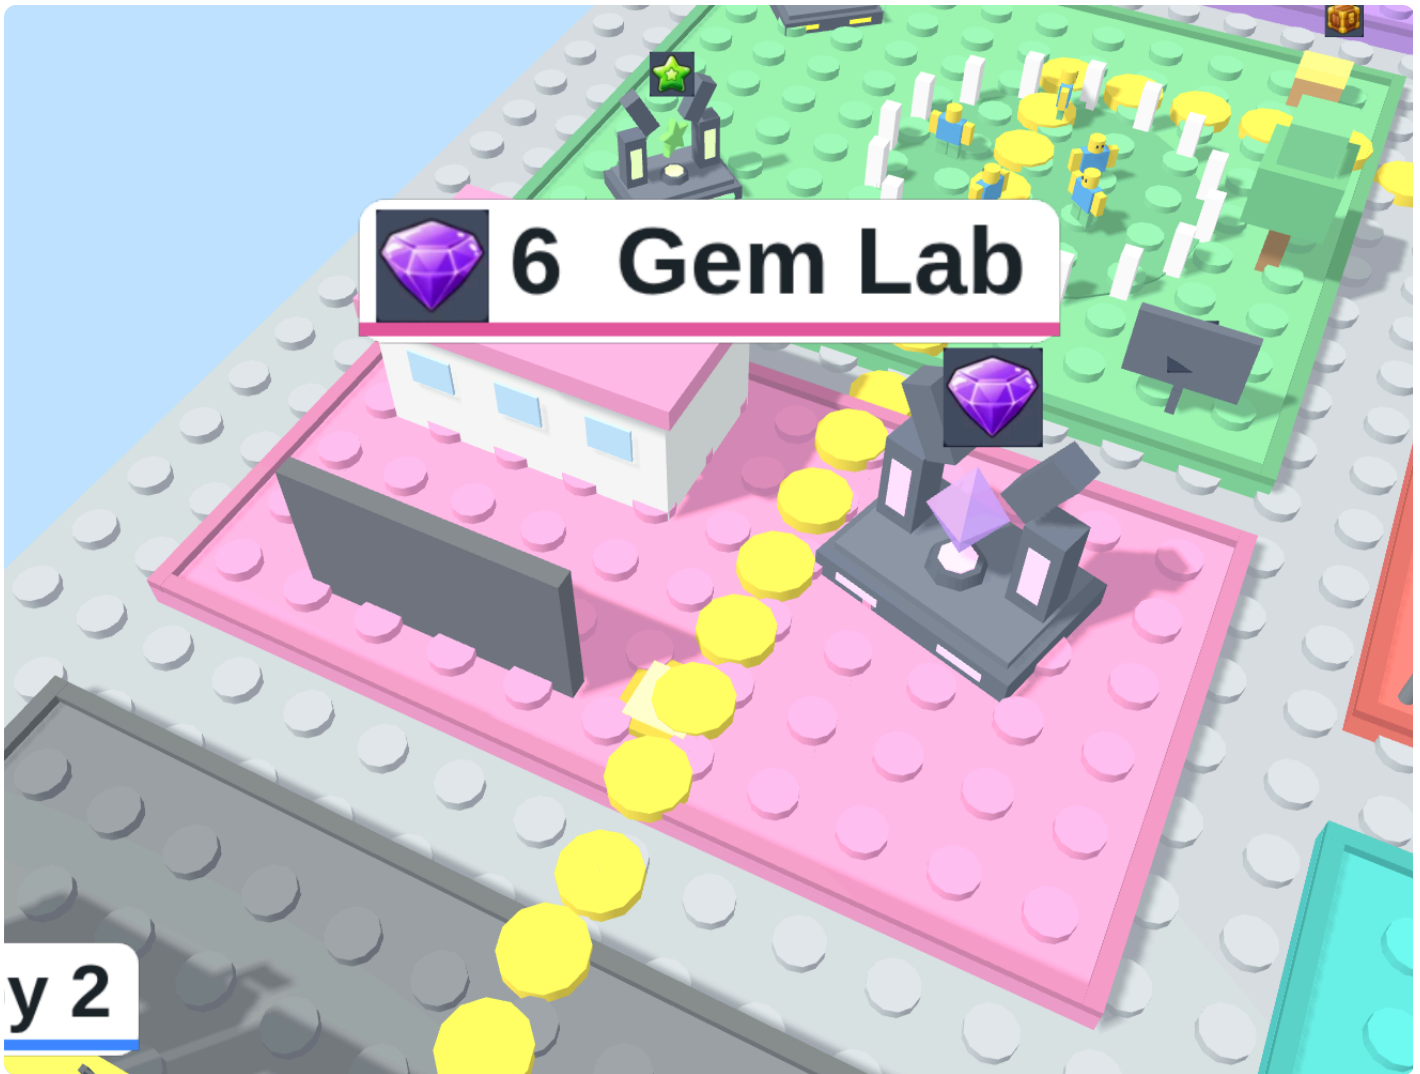

How it looks: A grassy green plate with a round fighting ring fenced by white brick posts. Classic noobs (yellow head, blue torso, green legs) wander and hop inside. Two machines face the ring: Oofs, with a yellow smiley head floating in it, and Builder XP, with a green star. A golden Loot Crate chest sits in the corner, and a scoreboard shows Builder Level.

Build list:

- Floor: green plate 230×200.
- Ring: 100 studs across, darker inner floor, 16 white fence posts.
- Noobs: classic R6 noob rigs with a level billboard. They 'oof' and fall apart into bricks on death.
- Oofs machine (Core style, yellow glow) and Builder XP machine (Core style, lime glow).
- Loot Crate chest: wooden chest with gold trim that glows when it's ready.
- Scoreboard: dark panel with the Builder Level shield icon.

Feel & effects: Punchy hits, 'oof' sound on kill, damage numbers.

6. Gem Lab

Realm One · 230×130 studs · X 40–270, Z 420–550 · Floor #e5579b · Unlock: Stack 5 (x2 pad and talent Gem button at Stack 6) · Systems: Gems

The Gems machine, the x2 pad and the Talent Tree board.

How it looks: A clean white lab with a pink roof. Out front is the Gems machine, which should match the Crystal Core concept exactly, but purple: a tall faceted purple gem floats between two pillars whose angled caps lean in over it, with violet glow panels and strips. Along the south edge stands a dark Talent Tree wall with glowing buttons laid out as a branching tree.

Build list:

- Floor: pink plate 230×130.
- Lab: white 80×35×50 building with a pink roof and blue glass windows.
- Gems machine (Core style, purple glow #A259FF), scaled 1.3×. The gem is Glass + Neon core, elongated diamond shape.
- Talent Tree board: dark wall 70×40 with rows of coloured glowing buttons.
- x2 pad: small gold pad with a 'x2' billboard, locked until Stack 6.

Feel & effects: Soft hum, and light beams scattering off the gem.

7. Cylinder Garden

Realm One · 180×100 studs · X 300–480, Z 490–590 · Floor #1aa39a · Unlock: Stack 7 · Systems: Cylinders

Cylinders generation. It sits between **Spawn** and the **Crate Merger**.

How it looks: A calm teal garden. Glossy teal cylinders float in a slow ring above square hedges and flower studs. The Cylinders machine in the middle has a fat teal cylinder spinning on its pedestal, with teal glow.

Build list:

- Floor: teal plate 180×100.
- Cylinders machine (Core style, teal glow #2EE6C9) in the centre.
- 6–8 floating teal cylinders orbiting slowly.
- Green hedge bricks and 1×1 flower studs along the edges.

Feel & effects: Chill wind chimes and soft glow particles.

8. Crate Merger

Realm One · 180×120 studs · X 300–480, Z 620–740 · Floor #1f6fd1 · Unlock: Stack 8 · Systems: Crates, Tools, Thrusters

Crates (the cube merger), Tools (gears) and Thrusters (accelerator).

How it looks: A blue factory plate. A black conveyor carries wooden crates into a big blue merger machine that merges them into bigger crates. Crossed hammer-and-wrench Tools spin on a machine beside it. A Thrusters machine has a rocket thruster firing an orange flame.

Build list:

- Floor: blue plate 180×120.
- Conveyor: 150-stud black belt with grey rails and wooden crates riding it (they get bigger and darker as they level up).
- Merger: blue 40×35×40 box with a silver hopper, glowing window and output chute.
- Tools machine (Stack style, orange glow) with a crossed hammer and wrench.
- Thrusters machine (Core style, orange/white glow) with a rocket and a flame particle.

Feel & effects: Clanks, conveyor whirr, and a rocket roar from the Thrusters machine.

9. Ball Tower

Realm One · 160×120 studs · X 520–680, Z 560–680 · Floor #2b3a8f · Unlock: Stack 9 (Meteors at Stack 10) · Systems: Balls, Meteors

Balls levels. It's the tallest thing in Realm One, so you can see it from spawn as a goal.

How it looks: A navy plate with a wedding-cake tower of round layers that get smaller going up (navy and blue with gold trim). A huge glossy pink ball sits on top, circled by two glowing rings. At the base are a Balls machine (pink ball) and a Meteors machine: a flaming orange rock with a fire trail, which unlocks at Stack 10.

Build list:

- Floor: navy plate 160×120.
- Tower: 4 tiers (60/50/40/30 studs across, 25 tall each) with gold trim rings.
- Top ball: glossy pink #FF2FA8, 25 studs across, with a white highlight. Rings orbit it.
- Balls machine (Core style, pink glow).
- Meteors machine (Core style, orange-red glow) with a fire particle trail.

Feel & effects: Epic low hum near the tower, and meteor whooshes.

10. Obby Gates

Realm One · 230×160 studs · X 40–270, Z 580–740 · Floor #3b4148 · Unlock: C1 Stack 6 · C2 Stack 8 · C3 1e393 Studs · C4 1e96 Studs · Systems: Obbies

The four Obbies (challenges). Each one resets you to Stack 0 with a handicap, and clearing it gives a permanent boost.

Reset pad · Obbies (entering): wipes Everything a Stack does, plus talents (except 16 kept ones), Build Points and their upgrades, Gems, and Stack back to 0. **Keeps:** Runes, Tix, finished Obbies.

How it looks: A dark charcoal plate. Four tall yellow archways stand in a row, each with a glowing portal door (Obby 1 red, 2 blue, 3 green, 4 purple) and a checkered flag on top. In front of each door, a short staircase of orange floating obby blocks leads up to it, like the Obbies icon. Torches stand between the arches.

Build list:

- Floor: dark grey plate 230×160 with cracked-tile detail.
- 4 arches: yellow pillars and lintel, Neon translucent door, checkered flag on a pole.
- Orange obby steps (3 blocks each) in front of each door.
- Plaque above each arch: 'Obby 2 · Reach Stack 8', etc.
- Completed obbies swap the door for a gold trophy.

Feel & effects: Tense music, faint wind and glowing embers.

11. Rebirth Portal

Bridge · 130×80 studs · X 690–820, Z 340–420 · Floor #7a4bc4 · Unlock: Studs > 1e2283 (~7 h in) · Systems: Rebirth, The Glacier

A tan bridge over the water with a giant purple-pink Rebirth ring. Going through it is the only way into The Glacier.

Reset pad · Rebirth: wipes Everything a Stack does, talents, Build Points, almost all Runes (all but the ultra-rare ones), Gems, Stack, Builder XP and Level, Obby completions. One-time. **Keeps:** Ultra-rare Runes, Tix; unlocks The Glacier.

How it looks: A studded tan bridge crosses the water. Halfway across, a huge upright ring in the Rebirth colours (purple fading to pink) spins with a swirling portal inside. On the far side, an ice-brick archway (The Glacier icon: a frosty gate with a blue swirl) welcomes you into Realm Two.

Build list:

- Bridge: tan plate 130×40 with brick rails and purple lamps.
- Rebirth ring: Neon torus 80 studs tall, standing upright, slowly rotating, with a particle vortex inside.
- Lock gate: grey wall with 'Rebirth: 1e2283 Studs', removed after the first Rebirth.
- Glacier gate: translucent ice-brick arch with a blue swirl, on the Glacier side of the bridge.

Feel & effects: A rising choir near the ring and a white flash on teleport.

12. Frost Rune Row

The Glacier · 340×120 studs · X 830–1170, Z 30–150 · Floor #5aa6e0 · Unlock: Polychrome after Rebirth · Cryo Anchor 3 · Arctic Union 7 · Galactic Union 750 · Systems: Runes, Gems, Frost Points, Neon, Tix

The late-game rune packs, on ice-blue machines along the north edge of The Glacier.

How it looks: An icy blue plate with 4 rune machines whose pillars are made of ice, with frost-blue glow. The rune crystals: Polychrome is purple with a rainbow sheen, Cryo is pale cyan and frosted, Arctic is clear white with blue edges, and Galactic is deep space-purple with star specks. All keep the glowing pink square symbol. Icicles hang off an archway behind them. Add a sign: 'Glass & Gems runes: Nature, Polychrome, Cryo, Arctic'.

Build list:

- Floor: blue plate 340×120 with snow patches.
- 4 rune machines (Core style), with ice pillars instead of dark ones.
- Billboards with cost icons: Polychrome = Gems, Cryo = Frost Points, Arctic = Neon, Galactic = Tix.

Feel & effects: Frost sparkle and soft chimes.

13. Glass Well

13 Glass Well

The Glacier · 150×150 studs · X 830–980, Z 190–340 · Floor #9fd8f2 · Unlock: After first Rebirth (Stack 10+ runs on Glass) · Systems: Glass, Glacier, Diamond Plate

Glass generation plus the Glacier and Diamond Plate buttons. It's the first thing you see coming off the portal.

Reset pad · Diamond Plate: wipes Glass and Glacier. **Keeps:** Everything else.

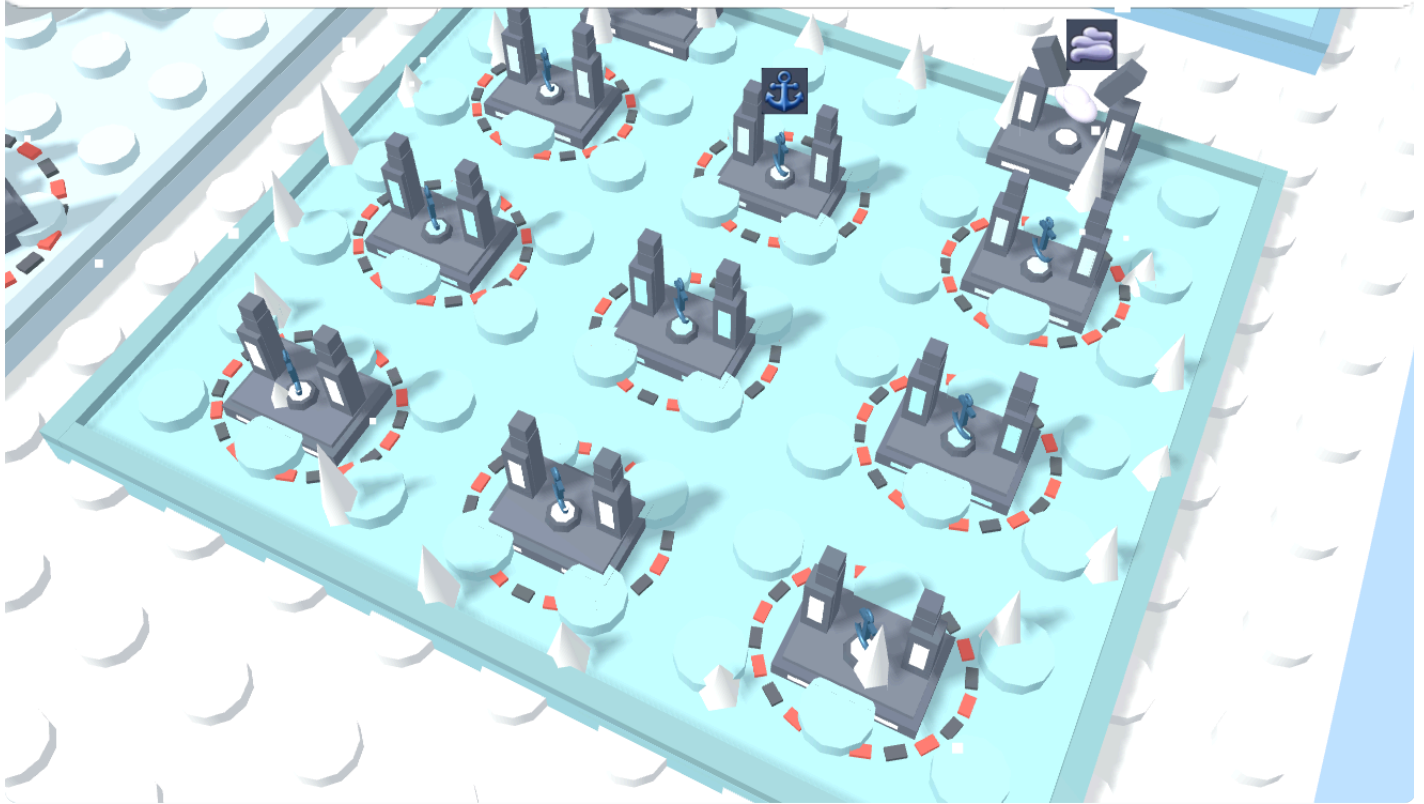

How it looks: A pale-ice plate with a stone well full of glowing water. Glass slabs rise out of it and float up. Around the well are three machines: Glass (a cyan glass slab), Glacier (a blue ice-crystal cluster) and Diamond Plate (a silver tread plate). Diamond Plate gets a hazard ring because it resets Glass and Glacier.

Build list:

- Floor: light ice plate 150×150.
- Well: grey brick ring 60 across, glowing blue water inside, small roof with a bucket.
- Glass machine (Core style, cyan glow).
- Glacier machine (Core style, blue glow) with an ice crystal cluster.
- Diamond Plate machine (Stack style, silver glow) with a hazard ring. Locked until Anchor 2.

Feel & effects: Water drips and a glassy clink on each buy.

14. Anchor Works

The Glacier · 170×150 studs · X 1000–1170, Z 190–340 · Floor #62b8c9 · Unlock: Anchor 1–3 Stack 11 · 4–6 Stack 12 · 7–9 Stack 13 · Systems: Anchor, Force Fields, Fog

All 9 Anchors (Freeze) as a 3×3 grid of small anchor machines, one row per Stack. Force Fields and Fog unlock at Stack 13.

Reset pad · Anchor 1–9: wipes Everything a Stack does, plus Gems, Glass, Glacier, Diamond Plate, Glass upgrades, talents (except kept) and Neon. **Keeps:** Stack level.

How it looks: A teal plate with a 3×3 grid of small dark machines, each with a blue anchor floating in it. The glow gets brighter row by row (Stack 11 dim, Stack 13 bright). At the back, a Force Fields machine holds a purple glass dome with a tiny cube inside, and a Fog machine puffs lavender clouds. Ice spikes ring the plate.

Build list:

- Floor: teal plate 170×150.
- 9 Anchor machines (Stack style, blue glow), each 0.6× size, labelled Anchor 1–9 with cost in Glass. Hazard rings on all of them.
- Force Fields machine (Core style, purple glow).
- Fog machine (Core style, lavender glow) with a cloud particle emitter.
- Ice spikes around the border.

Feel & effects: Heavy chain clank and an ice crack on purchase.

15. Union Machine

The Glacier · 340×120 studs · X 830–1170, Z 430–550 · Floor #b690e8 · Unlock: Talent Union unlock (Gems ≥ 5e43) · Systems: Union, Neon, Foil

Union (Chromatize). Union 1 or higher starts Neon generation.

Reset pad · Union: wipes Talents (except kept), Gems, Neon, Foil. **Keeps:** Stack, Glass side.

How it looks: A lavender plate with the biggest machine in The Glacier: a white-and-chrome body with a glass dome, surrounded by rainbow Neon rings spinning at different angles. Two teal cubes merge into one on top, like the Union icon. On either side stand a Neon machine (a green lightning bolt) and a Foil machine (a shimmering pink-cyan foil sheet).

Build list:

- Floor: lavender plate 340×120.
- Union core: white/silver 60×40×50 with a glass dome, 6 rainbow rings and the merged-teal-cubes centrepiece. Hazard ring at the pad.
- Neon machine (Core style, green glow #39FF14).
- Foil machine (Core style, iridescent pink/cyan). Locked until Union 1000.

Feel & effects: Electric hum, and a rising pitch when you Union.

16. Publish Spire

The Glacier · 240×160 studs · X 880–1120, Z 590–750 · Floor #f0c94a · Unlock: Publish 1 Lighting · 2 Foil pad · 3 Reflectance · Systems: Publish, Lighting, Foil, Reflectance, Sparkles

The end-game tower. Publish (Chromify) plus the Lighting, Foil and Reflectance machines.

Reset pad · Publish: wipes Talents, Gems, Neon, Foil, Lighting, Reflectance, Sparkles and their upgrades. **Keeps:** Stack, Union level.

How it looks: A golden plate with a 3-tier spire: white base, gold middle, white top, and a glowing gold tip shooting a beam of light into the sky. The Publish machine (a blue up-arrow rising out of a tray) sits front and centre. Around it are Lighting (a glowing bulb), Foil and Reflectance (a mirror). Sparkles particles drift around the whole plate.

Build list:

- Floor: gold plate 240×160.
- Spire: 100/75/50-stud tiers, 30 tall each, gold trim rings and windows that light up per Publish level.
- Publish machine (Stack style, blue glow) with a hazard ring.
- Lighting machine (Core style, warm yellow).
- Reflectance machine (Core style, silver/ice-blue) with a hazard ring.
- Sparkles: gold four-point star particles everywhere on the plate.

Feel & effects: Choir music and a light beam you can see from anywhere in The Glacier.
